Total Body Wellness

Improving Health Benefits with Tango Combos

Tango supplements are time-tested, foundational health formulas designed to support wellness and functional healthspan. While each formula is optimized to benefit a specific health concern, superior results may be achieved by combining formulas in specific ratios. The following table illustrates some of the most popular combinations of Tango herbal formulas. Note that many people have multiple areas that need support, and it is ok to take formulas for each. The daily dose of each supplement is listed in parentheses ().

Take ½ the number of capsules in the morning and ½ in the evening. Products can be taken with or away from meals. Taking with meals can help you more comfortably digest the herbal ingredients. If you are taking blood thinning medications use formulas that promote blood circulation with caution. Review them with your health care provider as needed. If you have questions about combining formulas, please call the Tango product support line at 1-866-778-2646, ext 2.

★★★★★ *“I love this product! I had heart rhythm concerns and didn't want to go on the usual products. I read about CardioPhase and decided to try it. It really works! I now take 4 capsules a day and have my husband on it too (he can't take statins). His last heart scan was great! It's been 12 years since he had quadruple bypass surgery and the techs were so impressed! It's amazing what diet, exercise and things like CardioPhase can do for you!”*

– Laura A.

Daily Movement®

Safe and Gentle Natural Laxative Formula

This gentle and effective herbal laxative was designed by Dr. Jake Fratkin for occasional constipation and irregular bowel movements utilizing traditional approaches to regularity. Instead of the strong, harsh purgative effects commonly experienced with laxatives, **Daily Movement** works with the body to lubricate and moisten the intestines to provide a gentle, natural laxative to help maintain and promote healthy regularity.*

Directions: 1 to 2 capsules, taken 1 to 3 times daily. Not recommended for pregnant or nursing women.

Herbal Boost® Advanced Recovery Formula

Herbal Boost Recovery Formula was developed by Dr. Dexin Yan to aid older patients in need of extra assistance in dealing with life’s harshest challenges. Dr. Yan began with the powerful tonifying herb, Cordyceps, to support physical health, healing, and recovery. He also included traditional herbs for energy production, immune function, and free radical scavenging activity. Additional herbs help to maintain the quality of blood components (red cells, white cells, platelets, and plasma) while supporting cardiovascular health and circulation. Finally, Herbal Boost includes herbs to support the major organ systems (heart, liver, kidneys, etc.) to aid in maintaining optimal health after recovery..

Directions: 1 to 2 capsules, twice daily.
